Working with our community

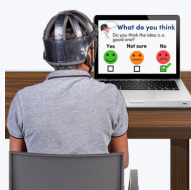

ISLINGTON
For a more equal future

Hearing what people with learning disabilities think about the local area and services is very important to Islington Council.

We are Community Consultants and we engage with the local community and hear what they have to say.

We run lots of discussion events in Islington on topics such as transport, health, safety and work. They also send out surveys to anyone who can't attend an event.

All the feedback is given to the Council to help make improvements to the lives of people with learning disabilities.

Please come along to an event and share your views with the team!
